

Shaw Machinery has been in business since 1990.

Our staff have been involved in the Engineering industry, since 1968.
This gives us the experience to advise customers the correct machinery for their applications.

If we don't have the machine in stock, we will search Nationally and Internationally for the correct machine for you.

We have service technicians, skilled in Electrics, Electronics, Mechanical and Hydraulics, to repair and advise on the design of machines.

Commissioning and training can be arranged with any purchase of machinery.
Correct Operating Procedures and Hazard Identification data sheets are available for all our machines.

We buy, sell, trade, consign and repair all types of Metalworking machinery.
We stock a large range of New and Used Metalworking Machinery at our Clontarf premises.

We stock new and used brands like:
Hafco, Kleen, Pacific, YSD, LVD, Promecam, Amada, Metalmaster, Steelmaster, CMT, Machtech, Hydrabend, Shaw bend, Hydracut, SIP, Techna, Strand, Thomas, Macc, Brobo, Arboga, Cosen, Mebusa

Repeat business and word of mouth recommendation is our greatest advertising tool and asset.

Phone our friendly staff for a personalised service.

“You can be sure with Shaw”
